Business Copy					
HAFO					
VA7110 , VA7410 (+FC Hubs and Switches)			**Requires A5814A#003**	**A5814A#003**	
Business Copy					
HAFO (Patch MXH5 & MXG9 or greater required for MPE/iX 7.0 & 7.5)		"	"	"	
Cluster/iX					
Heartbeat					

* HAFO requires patches MXH5 & MXG9 or greater for MPE/iX 7.0 & 7.5

Supported Switches: Brocade 2400/2800 Silkworm Switches, FC64 and HP 1/2Gb/s FC Switch 8B and 16B. This is not a complete list of switches, please go to HP's website for a complete list and more information.   http://www.hp.com/products1/storage/products/san/fibreswitches/index.html

A5814A-SCSI Router only supports:
1   A SCSI device distancing solution for SCSI HVD devices such as the HASS (Jamaica) Enclosure, 12H Autoraid and XP256-SCSI.
       No support for Mirrored Disk/iX, FC switches nor Dump disks using the distancing solution.
2   Direct connect to XP512 array
       No support for any FC switches or hubs.

A5814A-003 SCSI Fabric Router only supports:
1   XP12000, XP1024/XP128, XP512/XP48, VA7100, VA7110 and VA7410 with HP's supported portfolio of hubs and FC switches.
2   No support of tapes.

Mirrored Disk/iX is only supported on JBOD enclosures like the DS2100 and DS2300.   No support of distancing routers and disk arrays.

Cluster/iX Hardware Support List: Model-20, 12H AutoRAID, VA7xxx, XP256, XP512/XP48, XP1024/XP128 & XP12000. Limited support on EMC Symmetrix.
